TO THE WEST! TO THE WEST!

Before making your arrangements to follow the advice of the "thousands who have already gone," it would be well to consider what has been done to make the journey to your "Homes in the West" as pleasant and free from danger as human skill and foresight can accomplish.

By consolidation and construction, a road has been put into operation on the shortest possible line from Nashville, Tenn., to St. Louis, "the future great City of the world." This line, the

ST. LOUIS & SOUTHEASTERN RAILWAY,

has, during the past year, earned an enviable reputation by its smooth track, prompt time, sure connections, and the magnificence of its passenger equipment. Its trains are made up of new and commodious day cars, provided with the celebrated Miller coupler and platform, and the Westinghouse air-brake.

It is possitively the only line running Pullman Palace Drawing-Room Sleeping Cars through without change from Nashville to St. Louis. No other line pretends to offer such advantages, either in distance, time, or equipment. Why, then, journey by circuitous routes? Do not be induced to purchase tickets to St. Louis or the West by any other line, remember that

The "St. Louis & Southeastern"

is the shortest, cheapest, quickest, best and only line under one management from Nashville to St. Louis, and is from 60 to 200 miles the shortest to St. Louis, Kansas City, Omaha, Denver, California, Texas, and all western points. It is also the "Chicago Shortest Line," via Evansville.

You can secure the cheapest rates for yourselves and your movables on application, in person or by letter, to C. S. BARRETT, Southern Passenger Agent, Postoffice Box 242, Chattanooga Tenn., or to the undersigned.

Death of Agassiz.

The announcement of the death of Professor Agassiz was made in our telegraphic columns yesterday. The event, though not unexpected, is none the less deplored, for wherever untiring energy in the pursuit of knowledge is admired, the loss of this brightest ornament of the scientific world will be felt and lamented.

Louis John Rodolph Agassiz was born of French descent. His lineage for six generations was most illustrious; not deriving its grandeur from any earthly monarch, but from the Heavenly Father, Whose priests and ministers his six immediate ancestors were. Louis was born the 28th of May, 1807, in the valley between the Lakes of Neufchatel and Morat, in Switzerland. Like all truly great men, his mother was a woman of uncommon intelligence, and she conducted his early education, and gave the impress of her talents and energy upon his mind.

Up to 1846, Agassiz's life was passed in Europe. He had devoted himself with untiring industry to scientific pursuits, and was the author of several works on natural science. His reputation was great, and in various journeys throughout England, Germany, and France, he was welcomed by the most eminent persons in those countries. In 1846 he came to this country on a mission to learn something of its natural history and geology. Meeting with Professor A. D. Bache, of the United States Coast Survey, he was invited to accompany its operations from Maine to Texas. The advantages of the offer were so great that Agassiz accepted it, and determined to make our country his home.

It is impossible within the limits of this article to give the briefest account of the labors of this great man. His researches and scientific explorations have led him to every part of the United States. Endowed with great physical power, he was eminently adapted for the career he selected. The influence of his investigations and publications, especially those relating to the United States, is penetrating and profound. His example and teachings have called into action a large number of men whose enthusiasm for scientific achievements is leading them through all obstacles to science. And, although, his body is laid in the grave, yet his fame upon earth has made his memory as immortal as his soul which has returned to its Maker.

Death of Judge Nelson.

Hon. Samuel Nelson, Ex-Associate Justice of the Supreme Court of the United States, died of apoplexy last Saturday, at his home in Cooperstown, New York.

Judge Nelson was born in Washington county, New York, November 10th, 1792. He graduated at Middleborough College Vermont, and applied himself to the legal profession. He occupied judicial positions in New York for twenty-two years, eight of them as Chief Justice of the Supreme Court. In 1845 he was appointed to the Supreme Court of the United States, which position he resigned in 1872 for the quiet and comfort of a domestic life.

He was a member of the Joint High Commission which met in Washington to settle the differences between the United States and Great Britain, and by his thorough knowledge of international law, did much to bring about a peacible settlement of the questions which divided the countries.

Judge Nelson's superior as a jurist cannot, perhaps, be found among the names which adorn the English or American Bench. Fearless and ardent in his love for his country and her institutions, yet upon the bench his decisions and opinions must entitle him to the respect and admiration of all men.

The Right of Usury.

Col. Humphrey, Senator from Wayne county, has introduced a bill to make the rate of interest uniform in the State. What the provisions of the bill are we do not know, as it has not yet been printed. The bill will be likely to regulate to a certain rate, and perhaps prescribe penalties for what is commonly denominated usury. The burdens grievous and heavy to be bourne which press upon the productive industry of this State, demand the consideration of every one interested in its welfare, but it may be doubted whether the remedy is within the appropriate limits of legislation.

Production, distibution and consumption should be unfettered by legislative enactments, and left to follow the usual course of trade. The natural right to acquire property is commensurated by the right to use property as the owner sees proper. These rights have for their foundation the laws of man's being, and the necessities of his existence, and to deny them, is to restrict the application of the gifts of his Creator. Human slavery had for its defense, the assumption that government could interfere to deprive men of the right to acquire property, on account of the incapacity of the negro race to exert and properly use it.

We do not know that additional legislation will prevent a high rate of interest from being demanded and paid by borrowers. The cause of the troubles that producers labor under, is that they carry on work upon an imaginary capital for which they pay high interest. The high prices which have ruled for our staples since the war, have allured men into enterprises beyond their own ability to carry through. Then they have recourse to the money lender who gets as much for his advances as he can—only following the example of his fellow men. It is an invariable rule of political science, that wherever high rates of interests prevail, the security for capital is small. Although a man may offer property as security which he thinks is worth much more than the sum he wants, yet if the condition of the community is such that he pays high for his loan, it is likely than when he needs the principal and interest to repay the lender, his difficulty will be as great as when he borrowed.

That the country is in a condition to be prosperous, one has but to observe the career of the few producers who pay no interest on the capital necessary to carry on their business. Could such a system be the rule instead of the exception, our increase in material wealth would be wonderful. But unhappily the producer has to lay an extra tax on the muscle which makes his crop in advance, and from the time the first furrow is turned to the completion of the gathering, that double burden has to be carried.

GENERAL ASSEMBLY.

[Condensed from the Raleigh News.]

Special Order.

The bill to authorize cities and towns of more than two thousand inhabitants to establish and maintain free public schools, came up as the special order at 12 o'clock. The bill provides that the Mayor and Council of each city, or the Commissioners of each city, or town of more than two thousand inhabitants, may, at any time, of their own motion, and shall at the written request of any twenty voters in the city or town, submit the question to the electors within the corporate limits of the city or town, whether or not Free Public Schools shall be established and maintained within the city or town by a tax upon the property, credits and polls within the corporate limits thereof. It provides further, the manner of holding the elections and the levying of the tax, etc., etc.

The following letter was read during the debate:

RALEIGH, Dec. 11th, 1873.

Hon. John W. Cunningham, Chairman of Committee on Education:

SIR: At a meeting of the citizens of Raleigh to consider the subject of public schools in the city, Hon. Will. H. Battle presiding, and Gen. John C. Gorman acting as Secretary, the Rev. Joseph M. Atkinson, Rev. A. W. Mangum, and Hon. Wesley Whitaker, together with the undersigned, were appointed a committee to make application to the General Assembly for such legislation as will enable the city of Raleigh to inaugurate and support by taxation an efficient system of public graded schools, equal, if possible, to the best in the land.

The meeting very fairly represented the intelligence and the tax-paying power of our citizens. After full discussion and with inconsiderable opposition, the following conclusions were reached:

1. That it is vain to expect schools of high character to be sustained out of the meagre school fund, and it is not probable that this fund will be soon greatly increased.

2. That efforts to supplement this fund by voluntary contributions will be spasmodic, uncertain and unreliable.

3. That the only mode of insuring success, is to raise a definite and liberal sum annually by taxation on all the taxable subjects of the city.

4. That such action will make the Capitol a shining example, which will be copied by other cities and towns of the State, will lead to influx of population desiring to receive educational advantages, will thus increase the wealth of the city so as far to overbalance the burdens of the requisite taxation, will dispel ignorance and diminish crime, will promote the intelligence, virtue and usefulness, not alone of the rising generation, but of the people generally.

The committee are painfully conscious of the bad state of education in our midst. Probably three-fourths of the children are growing up in mental darkness. Many are learning nothing but how to do evil. The strict discipline of graded schools is needed to supplement the efforts of parents to secure habits of obedience and right course of intellectual and moral training.

The committee therefore venture to express the hope that the General Assembly will see fit to enact into a law the bill authorizing cities and towns of more than two thousand inhabitants to establish and maintain Free Public Schools, or at least will grant such authority to the City of Raleigh.

With great respect,
Yours truly,
KEMP P. BATTLE,
Chairman of Committee.

Mr. Price moved to reconsider the vote by which the bill passed yesterday, changing the 4th Judicial District, for the purpose of moving the further consideration of the bill to Tuesday next.

Mr. Scott opposed the motion, and moved to lay that motion on the table. On this motion Mr. Price called the yeas and nays.

The motion to reconsider was tabled by a close vote.

Prospectus for 1874—Seventh year.

THE ALDINE,

An Illustrated Monthly journal, universally admitted to be Handsomest Periodical in the World. A Representative and Champion of American Taste.

Not for Sale in Book or Music Stores

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh picasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there are the chromos, besides!

ART DEPARTMENT, 1874.

The illustrations of THE ALDINE have won a world-wide reputation, and in the art centres of Europe it is an admitted fact that its wood cuts are examples of the highest perfection ever attained. The common prejudice in favor of "steel plates," is rapidly yielding to a more educated and discriminating taste which recognizes the advantages of superior artistic quality with greater facility of production. The woodcuts of THE ALDINE possess all the delicacy and elaborate finish of the most costly steel plate, while they afford a better rendering of the artist's original.

To fully realize the wonderful work which THE ALDINE is doing for the cause of art culture in America, it is only necessary to consider the cost to the people of any other decent representations of the productions of great painters.

In addition to designs by the members of the National Academy, and other noted American artists, THE ALEINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success and greatest general interest. Thus the subscribers to THE ALIENE will at a trifling cost, enjoy in his own home the pleasure and refining influences of true art.

The quarterly tinted plates for 1874 will be by Thos. Moran and J. D. Woodward.

The Christmas issue for 1874 will contain special designs appropriate to the season, by our best artists, and will surpass in attraction any of its predecessors.

PREMIUM FOR 1874.

Every subscriber to THE ALDINE for the year 1874 will receive a pair of chromos. The original pictures were painted in oil for the publishers of THE ALDINE, by Thomas Moran, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "The West," One is a view in the White Mountins New Hampshire the other gives the Cliffs, of Green River, Wyoming Territory. The difference in the nature of the scenes themselves in a pleasing contrast, and affords a good display of the artist's scope and coloring. The chromos are each worked from thirty distinct plates, and are in size (12 x 10) and appearance exact fac-similes of the originals. The presentation of a worthy example of America's greatest landscape painter to the subscribers of THE ALDINE was a bold but peculiarly happy idea, and its successful realization is attested by the following testimonial, over the signature of Mr Moran himself.

NEWARK, N.J., Sept 20th, 1873.

Messrs, JAMES SUTTON & Co.

Gentlemen,—I am delighted with the proofs the color of your chromos. They are wonderfully successful representation by mechanical process of the original paintings.

Very respectfully,
(Signed,) THOS, MORAN.

These chromos are in every sense American. They are by an original American process, with material of American manufacture, from designs of American scenery by an American painter, and presented to subscribers to the first successful American Art Journal. If no better because of all this they will certainly possess an interest no foreign production can inspire, and neither are they any the worse if by reason of peculiar facilities of production they cost the publishers only a trifle, while equal in every respect to other chromos that are sold singly for double the subscription price of THE ALDINE. Persons of taste will prize these pictures for themselves—not for the price they did or did not cost, and will appreciate the enterprise that renders their distribution possible.

If any subscribers should indicate a preference for a figure subject, the publishers will send "Thoughts of Home," a new and beautiful chromo, 14 x 20 inches, representing a little Italian exile whose speaking eyes betray the longings of his heart.

TERMS.

$5 per annum, in advance, with Oil Chromos free.

For 50 Cents Extra, the chromos will be sent, mounted, varnished, and prepaid by mail.

THE ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rate; cash for subscriptions must be sent to the publishers direct, or handed to the local canvasser, without responsibility to the publishers, except in cases where the certificated is given, bearing the facsimile signature of JAMES SUTTON & Co.

RUN OFF.—The W., C. & A. R. R. R. company being unable to move the engine from under the trestle at Cain's Savannah, and clear away the debris caused by the recent smash up, in time to allow the regular trains to make their accustomed trips, a temporary track was laid around the regular road and has been used since the accident. On yesterday a heavily loaded freight train was going over the temporary track, which proved to be insecure and when nearly the entire train had pulled over, it gave away letting four cars down under the trestle. The cars were a little injured. The greatest damage will be that of detention. A telegram has been received this morning stating that the regular track is open and ready for use.

A BEAUTIFUL FIEND.—A Beautiful Fiend; or, Through the Fire, is the startling name of Mrs. Emma D. E. N. Southworth's new book, to be published in a few days by T. B. Peterson & Bros., Philadelphia, Pa. No words from us are necessary to commend this book to Mrs. Southworth's many admirers; they will find in it no falling off the power that has made her previous books so attractive to them; the style is spirited and the intense interest sustained to the end. All of Mrs. Southworth's thirty-six popular books are put up in a neat box, price $63—or $1 75 each, bound in morocco cloth, with a very handsome, newly designed, full gilt back, and will be sent to any address on receipt of price by the publishers, making an elegant and appropriate Christmas present. T. B. Peterson & Brothers have lately published a paper cover edition of Wilkie Collins' Works; Prof. Liebig's complete works on Chemistry; the Master of Greylands, by Mrs. Henry Wood; Bellehood and Bondage, by Mrs. Ann S. Stephens; new and beautiful editions for the holidays of Beautiful Snow and of The Outcast, by J. W. Watson; Mrs. Hale's new Cook Book; Kenneth, the Earl of Glengyle, by G. W. M. Reynolds; the Heiress in the Family, by Mrs. Daniel; Count of Monte-Cristo, by Dumas; the Gipsy's Warning, by Miss E. A. Dupuy; and they will send their new illustrated catalogue to any address, if written for.

Col. Dent has resided for a long time at the White House as the guest of his daughter. The Colonel never abandoned his Democracy. His somewhat forcible denunciations of the prevailing faction, in its highest places, has been one of the features of the Executive Mansion. He ate his breakfast and smoked his cigar yesterday morning.

The committee on Privileges and Elections are divided upon the question as to whether Pinchback, upon his credentials, is entitled to be sworn in.

The question before the committee, upon which they were divided, was not as between McMillan and Pinchback, but whether Pinchback shou'd be seated.

Morton's resolution is, that the credentials of Pinchback for a seat in the Senate for six years, commencing 4th March, 1873, being in regular form, he is entitled, under the laws and usages of the Senate, to be sworn in, and that whatever grounds of contest to his right should be made thereafter.

Morton's resolution seating Pinchback is now up. Stockton is speaking, and no early result is expected.

THE NEW YORK TIMES.

Daily, Semi-Weekly and Weekly.

THE NEW YORK DAILY TIMES IS THE

ONLY REPUBLICAN JOURNAL

IN THE CITY OF NEW YORK.

The high character which THE DAILY TIMES has borne in the past is a sufficient guarantee for its conduct in the future. It will continue to advocate the cause of the public, without reference to the interests of individuals. No expense will be spared in the maintenance of its position as the foremost of American journals. It is the best daily family newspaper in the country. It has the latest news, the best foreign correspondence and the largest staff of home correspondents. All objectionable news and advertisements are rigidly excloded.

The Sunday Edition, per annum.....$ 2

THE SEMI-WEEKLY TIMES.

THE SEMI-WEEKLY TIMES contains a very careful epitome of our foreign and home correspondence; an interesting selection of current literature from the best foreign and domestic magazines; a choice variety of agricultural matter, and the very latest news up to the hour of going to press. TERMS—$3 per annum. Club rates—Two copies, one year, $5; Ten copies, one year, $25, and one extra copy free. New names may be added to clubs at any time during the year, at club rates.

THE WEEKLY TIMES.

THE WEEKLY TIMES is undoubtedly the best paper for the farmer, for the mechanic, and for all who live in localities which are served only by weekly mails. It contains, in addition to editorial comments on current topics, an excellent condensation of the news of the week; the most important events, both home and foreign, are reviewed at length, and a large quantity of matter is given especially interesting to the farmer and mechanic. Its market reports are the fullest and most accurate in the country. TERMS—$2 per annum.

Club rates of THE WEEKLY—all to one Post Office address—Five copies, per annum, $7 50; Ten copies, per annum, $12 50; Twenty copies, per annum, $23; Thirty copies, per annum, $30, and one extra copy to each club. PROSPECTUS.

THE EVENING POST.

J. C. MANN,

EDITOR & PROPRIETOR.

Published every evening, except Sunday, at

Five Dollars per Annum.

The POST is designed to reach all classes of citizens, and its subscription price is therefore placed so low as to be within the reach of all. It contains the

LATEST NEWS,

up to the time of going to press,

TELEGRAPHIC,
BY MAIL,
COMMERCIAL
AND LOCAL.

It should be in the hands of every man who desires to know what has transpired during the day, and, as it aims to give

RELIABLE INTELLIGENCE,

its publisher hopes it will prove a welcome guest in many families.

THE POST

is sprightly without being sensational, and it carefully excludes all objectionable incidents and reports calculated to offend the sensibilities of the most fastidious. As an

Advertising Medium

it claims to be first class. It has a good and constantly increasing circulation, and is read by almost every business man in the city.

Politically the POST is

UNSWERVINGLY REPUBLICAN.

Its editor having been a consistent member of that party since 1855, through its vicisitudes and triumphs, he claims to speak advisedly when advocating its principles. He is not, however an "extremist," and accords to others what he claims for himself, the right of free thought and of free speech.

THE ADVERTISING RATES of the POST, like its subscription price, are at liberal and at living prices, as an examination of them will show, and it bespeaks a share of public patronage.

THE EVENING POST

is closely identified with the local welfare of the Cape Fear region, and the believers in progress, whether

EDUCATIONAL,
AGRICULTURAL,
MECHANICAL, or
COMMERCIAL,

will find an enthusiastic ally in THE POST.

THE POST

is opposed to monopolies, but in favor of internal improvements, and a firm believer in the patronage and support of home enterprises and institutions.

Resolutions

Concerning Bridges over Wilmington and Weldon Railroad in the City of Wilmington, N. C,

WHEREAS, THE "CUT" MADE BY the Wilmington and Weldon Railroad Company in the construction of their Railroad, where the same crosses or intersects the streets in the city greatly impedes the passage of travellers and tends to the manifest injury of the citizens.

AND WHEREAS, The Board of Aldermen are advised that it is the duty of the said Wilmington and Weldon Railroad Company to erect and maintain bridges across such cuts where the same cross or intersect the streets in the city; therefore,

BE IT RESOLVED BY THE BOARD OF ALDERMEN, That in their opinion the public necessity demands the erection of bridges at the following points where the said Railroad intersects the following streets to wit: Second Street, Third Street, Fifth Street, Sixth Street, Seventh Street and MacRae Street.

RESOLVED, That in the opinion of this Board, the width of the bridges over said Railroad cut or excavation on Second Street should be thirty feet wide, on Third Street forty feet wide, on Fifth Street forty feet wide, on Sixth Street Twenty-five feet wide, on Seventh Street, twenty feet wide, on McRae Street twenty feet wide.

RESOLVED, That in the opinion of this Board, the Bridge known as Boney Bridge, where the Railroad crosses Fourth Street, is so narrow as to impede the passage of travellers on the same, and that a bridge of fifty feet wide would be necessary to accommodate the public at that point,

RESOLVED, That the Mayor cause a copy of these Resolutions to be served upon the President or Managing Agent of the Wilmington and Weldon Railroad Company, and that he direct the officer serving the notice to return a copy thereof, with the manner of service, to the office of the Clerk and Treasurer of the City.

The above Preamble and Resolutions were passed by the Board of Aldermen at their meeting November 21st, 1873.
